Anaheim, CA

TECHNICAL SKILLS

Languages: Javascript, Node.js, HTML5, CSS
Frameworks: React, React Native, Express.js
Technologies: Git, Visual Studio Code, Postman, NPM, Yarn, RESTful API's

PROJECTS

Nucamp Campgrounds
- Built a full-stack web app for an outdoor camping company, that can allow customers to sign in, book camping sessions, comment, and like their favorite campsites
- Utilized React Native to create a cross-platform phone app with the same functionalities as the web app
- **Tech Used:** Javascript, React, Redux, Reactstrap, React Native, Node, Express, MongoDB

Netflix Clone
- A fully functioning and mobile-responsive movie streaming web app using Netflix as a guide
- Utilized third party API to populate website with movie data taking advantage of component reusability
- Implemented User authentication and database management using Firebase, and integrated payment processing with Stripe API
- **Tech Used:** Javascript, React, Styled components, CSS, Firebase, Stripe, Cloud Functions, TMDb API

EDUCATION/ RELEVANT EXPERIENCE

Web Developer, Recent Graduate   *SEPT 2020 – FEB 2021*
